HOLOCO HISTORY

The HoLoCo has been a part of the Estherville High School since 1920. In that year the publication of a yearbook began. For many years, the yearbook was a combined publication of the high school and the college.

The HoLoCo was published for 11 years until 1933 when publication ceased for eight years. In 1939 the yearbook resumed publication and has continued since that time.

The title for the yearbook was selected by an almost unanimous vote by the student body in 1924. The name comes from the first two letters of the words "Honor, Loyalty and Courtesy" which at the time was the official motto of the school.

It is the wish of the Staff that Seniors, as well as underclassmen will be able to look back and remember with fondness this school year.

We dedicate the book to the Class of '83.

We wish you well.

Guys And Dolls

Guys and Dolls

It wasn't really the year a musical was supposed to be done but directors Sally Jensen and Dan Brown could see all that talent and they wanted to use them one more time, so we saw Guys and Dolls in the spring.

It is a musical fable of Broadway based on story and characters by Damon Runyan. The show has everything from the Save a Soul Mission to the Hot Box nightclub and the oldest traveling crap game in New York.

The music was familiar including 'A Bushel and a Peck,' 'If I Were a Bell,' 'Luck Be A Lady,' and 'Sit Down, You're Rockin' the Boat.'

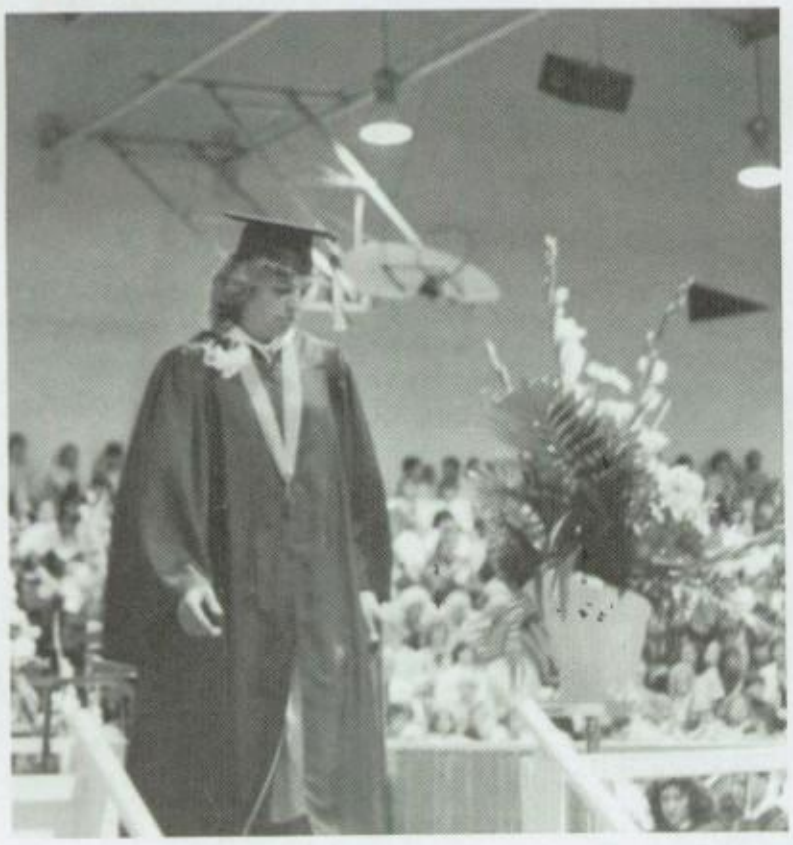
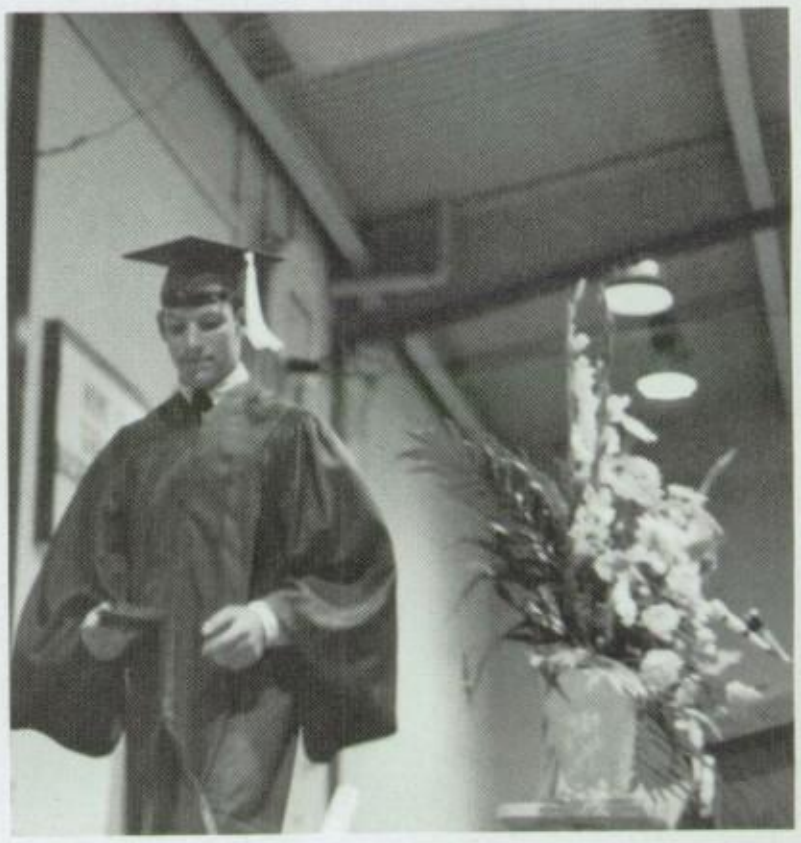
GRADUATION DAY!





It was a Grand day, Graduation, 1983. Oh, it was windy, but the sun was shining brightly. The gym was filled with friends and parents and aunts and uncles of the Class of '83. The class won't forget those speeches by Julie Lammers, Rick Johnson and Darcy Donahue.

Honor students wore gold ribbons with medals to signify their high grade points. They are Darcy Donahue, Debbie Lietz, Connie Pilquist, Connie Frederick, Julie Lammers, Bruce Anderson, Jackie Murray, Greg Harris, Molly Lynch, Charlie Johnson, Jann Thompson, David Vagle, Kay Johnson and Blaine Teply.

Gatherings - receptions - were held all over the town and countryside, with friends making their way from one to another.

1982

Junko Tanaka

I came here in Estherville in September, 1982 from Osaka, Japan and stayed with Mr. & Mrs. Frank Fuss family until July 1983.

This was my biggest problem I couldn't speak English as well as I was thinking so I had a hard time not to be quiet. But, looking back this school year, it was not only wonderful year but also worthy experience or discipline.

Since the school curriculum is much different, I enjoyed taking classes I don't have in Japanese high school, such as food specialities and typing.

As other activities at school, I had such an interesting time attending FHA activities and also as a Junior Varsity tennis member.

And as the most impressive memory, I moved up from junior to senior about a week before the Commencement and could graduate from this Estherville High School.

I really feel grateful for all of my teachers who understand my many problems during the class time and explained until I could understand, and for all of my friends who cheered and encouraged me all the time.

Thank you very much everyone and good bye.

Cindie Munro

"Hey, Cindie, will you write something for the Yearbook?"

"Sure, Miss Patrick," I reply, my mind filling with interesting topics to write on: reukampolining techniques, an exciting discovery in outer space, socks that fall up instead of down, a new way to. . .

"On yourself," she adds, shattering my illusions.

Myself! What could a bunch of high students possibly want to read about me? That I'm an only child, except for three cats, two dogs, two rabbits, some goldfish, parakeets, and chickens? No - really boring stuff!

Maybe that I come from a small rural town in the Gulliam Valley, Victoria, called Kyabram which is Aboriginal for 'thick forest,' although most of the trees have long since gone. Maybe you're into the deeper, philosophical differences between Australia and the USA: Christmas is in summer, the light switches here are upside down, and water runs down the drain in the opposite direction. Really!

Another difference that is very real is that in Australia we drive on the left side of the road, so naturally the steering wheel is on the other side of the car. When I first arrived I found myself constantly trying to climb in on the driver's knee. And I still can't condition myself to check the left side of the road before I step off the curb.

A lot of people ask me it it's hard to pack up and leave home for a year in a new and different country. In my case, I was almost too busy to be apprehensive until I actually sat down on the plane. But by then it still didn't seem real, and the feeling that I wasn't going to see my family, friends and country for a whole year didn't hit me until I'd been in Esterville for a couple of days. Of course, by then it's not hard to come here at all. I'm still here four months later.

I have made a lot of new friends in four months, and I'm sure I will find a lot more in the next eight. This semester also gave me a lot of memorable moments: the Junior, Senior Prom, Graduation and going to all of the receptions, hours spent dodging yearbook photographers—just to name a few.

What they all add up to is that my year at EHS will be one I will tell my grandchildren about.

Cindie Munro
